Experience

Independent Web Developer (Freelance)
January 2022 - Present

- As an independent web developer, I have worked with various clients to create custom websites tailored to their specific needs.
- I collaborated with clients to understand their goals, designed attractive and functional user interfaces, and developed both front-end and back-end features.

Created an eCommerce website for Inoxi
March 2023 - April 2023

- During my time as a web developer at Inoxi, I built an eCommerce website from scratch for their online sales business.
- I worked closely with the marketing team to design an engaging and intuitive user interface, and developed necessary features such as product management, shopping cart, and secure online payments.

Creation of a Social Networking Application (Individual Project)
Mai 2023 - July 2023

- Additionally, as an independent web developer, I undertook a personal project to create a comprehensive social networking application.
- I designed and developed all essential social networking features, including user registration and login, profile creation, post sharing, comments, and likes.
- I utilized the latest technologies and frameworks such as React.js for front-end development, Node.js for back-end development, and MongoDB for database management.
